MODEL PROGRAM

The municipal storm water National Pollutant Discharge Elimination System (NPDES) permit issued to the Los Angeles County Flood Control District, the County of Los Angeles and 84 cities by the Los Angeles Regional Water Quality Control Board on December 13, 2001 requires Permittees to implement an Illicit Connections/Illicit Discharges Program. The model program was released on July 30, 2002, and is attached.

Implement the model program and continue with the program we have in place that includes the Hazardous Material Incidents Response Handbook, the Illicit Discharge and Disposal Logbook, use of the County's hotline for public reporting, the public education and outreach efforts, and the employee training sessions. That program complies with the model program guidance.
